TTC Priority Streetcar Track Concrete Repair On Spadina Ave between Bremner Blvd and Lake Shore Blvd Weekend of January 21, 2012

510 SPADINA ROUTE

Beginning at 7:00 a.m. on Saturday, January 21, 2012 TTC track staff will carry out repairs to the concrete along the west rail of the northbound track of the streetcar right-of-way on Spadina Avenue between Bremner Boulevard and Lake Shore Boulevard West. The concrete has heaved and lifted in areas along this stretch of the track and can result in damage to the underside of streetcars.

In order to carry out these repairs, temporary changes will be made to the weekend streetcar service on Spadina Avenue. (See details and map below)

Work Hour Schedule

In order to complete the repairs in the shortest possible time and ensure that streetcar service can resume in this area on Monday morning, saw-cutting, excavation and removal of the concrete will be conducted on Saturday, January 21 beginning at approximately 7:00 a.m. and continue until completed. We do not expect the excavation work to go past 10:00 p.m. The placement of concrete will be conducted on Sunday, January 22 beginning at approximately 8:00 a.m. until 3:00 p.m. allowing for proper cure time before streetcar service resumes on Monday morning. Noise will be evident when some equipment is in full operation.

Transit Service Changes

During this weekend period, streetcars on the 510 SPADINA route will be diverted to accommodate this work.

- **510 Spadina Streetcar Route:** Streetcars will be diverted to Bathurst Station; operating from Union Station both ways via: Queens Quay West and Bathurst Street.
- **510 Temporary Bus Replacement Service:** will be provided on Spadina Avenue (curb lane operation) between Spadina Station and Queens Quay (Spadina/Queens Quay loop). Customers will require TTC paper transfer to transfer between the buses and streetcars.

Contacts

Diego Sinagoga, Customer Service at (416) 393-2197 (weekdays 8:30a.m - 4:30p.m.)
